Re: Personal contribution to the Imperial Ethiopian World Federation

Greetings in the Divine name of His Imperial Majesty Emperor Haile Selassie I!

My contribution to the Imperial Ethiopian World Federation (I.E.W.F.) and The Church of Haile Selassie I is considered best in the area of Communications. As His Imperial Majesty Emperor Haile Selassie I says,

”...We know that the zeal and vigor with which all Our people labour to preserve their lives and increase their standard of living can bear fruit only when adequate communications facilities are afforded them, and We have accordingly given special priority to this subject. A nation cannot prosper unless it has overcome the problems of communications. Without communications, agriculture cannot develop, nor can commerce or industry thrive. It is communications that relates and binds people together by ties of friendship.”

Haile Selassie I  
Nov. 2, 1960

Communications is the foundation of Education, Health, Agriculture, Government and the other areas of civilization. I am committed to serve Our Emperor and the legacy that he has put forth for all Ethiopians. It is time for Rastafarians and Haile Selassie I-ites to unify for a common purpose, “The Restoration of the Dynasty of Emperor Haile Selassie I!”

Ethiopia’s history and vision for the future must be communicated to all Ethiopians, those at home and those abroad (Rastafarians and Haile Selassie I-ites), who have a desire to see a peaceful, educated, healthy, and productive Ethiopia that is a beacon of light in the midst of chaos. Historical data and biblical scriptures provide us with a foundation for the future.

As stated above, we must use all forms of communications for modernization of developing countries like Ethiopia, Jamaica, Haiti, and other countries in the Caribbean, African and around the world.

Educational programs must communicate the importance of health and the use of technology in the coming civilization.

I look forward to working with all members of the I.E.W.F. and community, but especially the elders and leaders, like Abuna Ammanuel Foxe, who have carried the torch of freedom, determination, and love so that we are a part of the restoration of the Dynasty of Emperor Haile Selassie I.

JAH Guide and Protect!

I am... Michael.
